📍 Berlin, Germany

## About Me

My strength lies in taking established operations to the next level using automation and AI. Having spent 7 years managing complex supply chains and optimizing processes at a startup, with daily contact with German Mittelstand companies, I understand operational challenges across different business environments.

I approach each project by deeply analyzing current processes, identifying bottlenecks, and designing targeted solutions before implementing suitable technology. My Mechanical Engineering background and Lean Master certification provide the structured framework I apply to modern automation tools like n8n, Cursor, and AI-powered development platforms.

## Languages

- German - Native
- English - Fluent
- Spanish - A2

## Software

**Automation & AI:** n8n, Make, Relay.app, Lindy.ai, Placid.app, UiPath, Python, Pinecone, Supabase, NocoDB, Airtable, OpenRouter, Cursor, Google Apps Script, AutoHotKey

**Productivity:** Excel, Office Suite, Google Suite, Miro, Looker Studio, Salesforce (Admin), Slack, ClickUp, Notion

## Skills

- Process optimization & efficiency
- No-code automation
- Developing Agentic AI Systems
- Prompt engineering for AI
- Project management & delivery
- Analytical problem-solving
- Cross-team collaboration
- Conflict resolution & mediation
- Clear stakeholder communication

## Experience

- **Process Automation Consultant** 2025-Today  
*Veer.io, Berlin*
  - Created an automated Order Management System using n8n
  - Developed a Web-Frontend for Suppliers to see their Project Status
  - Automatic Follow-ups with Suppliers via WhatsApp
  - Migration of existing Data from Spreadsheets to NocoDB Database
- **Process Automation Consultant** 2025-Today  
*Pura Vida Festival Retreat, Berlin*
  - Created an AI-Chatbot with n8n to answer guest questions
  - Created an Event Platform, which automatically scrapes Event Postings from the Pura Vida Community Telegram Group and displays them online
  - Automatic creation of Ad Creatives via Airtable, n8n and Placid.app
- **Operations Team Lead** 2023-Today  
*Pura Vida Festival Retreat, Berlin*
  - Coordinating the Festival Operations Team (10 people)
  - Technical purchasing and logistics
- **Knowledge Management Consultant** 2024  
*Lou&You, Berlin*
  - Advice on how to build a knowledge base and ticketing system in Notion
- **Head of Logistics and Quality Assurance** 2023-2024  
*KREATIZE GmbH, Berlin*
  - Designed the layout and processes for a new in-house logistics center
  - Coordinated the full transition from an external provider to the new center without service disruption
  - Trained and led a 2-person team, managing day-to-day logistics operations
  - Achieved 50% cost reduction compared to the previous service provider
- **Logistics Manager** 2021-2023  
*KREATIZE GmbH, Berlin*
  - Management of an external service provider for logistics and quality
  - Optimization of operational processes with lean manufacturing principles
  - Introduction of new processes for labeling and quality assurance
  - Improvement in on-time delivery from 81% to 95% within 6 months
- **Process Improvement Manager** 2021-2023  
*KREATIZE GmbH, Berlin*
  - Implemented a data-driven feedback system to optimize price calculation
  - Led a collaboration with RWTH Aachen on manufacturing time analysis
  - Automated KPI tracking with Looker
  - Facilitated supplier performance workshops
  - Represented the supply chain department in the ISO 9001 audit
- **Supply Chain Manager** 2017-2021  
*KREATIZE GmbH, Berlin*
  - Developed the company's procurement strategy
  - Implemented digital workflows for streamlined supplier communication
  - Managed customer relationships across mechanical engineering sectors
  - Optimized complaint handling using the 8D method
  - Recruited and trained 7 employees; supervised 4 working students

## Education

- **Certification: "Lean Master (ISO 18404)"**  
*Q-LEARNING, Berlin - 2022*
- **Master in Mechanical Engineering (Final grade 1,5)**  
*TU Berlin, Berlin - 2018*
- **ERASMUS+ Semester in Entrepreneurship & Management**  
*KTH, Stockholm - 2017*
- **Bachelor in Mechanical Engineering (Final grade 1,7)**  
*KIT, Karlsruhe - 2015*
